

Masinde Sylvester

Web Developer/Graphic Designer

Detail-oriented and passionate software developer with a strong foundation in full-stack web development and graphic design. Proficient in front-end and back-end technologies, including HTML, CSS, JavaScript, React, Python, Flask, and SQLite. Experienced in creating user-focused solutions and delivering high-quality designs for print and digital media. Seeking a software engineering role to apply technical expertise, contribute to innovative projects, and further develop professional skills.

PROJECTS

Portfolio Website:

Designed and developed a modern, responsive portfolio website to showcase design and programming projects.

Technologies Used: HTML, CSS, JavaScript

Link: <https://portfolio-website-nu-tan.vercel.app/>

Job Application App:

Built a web-based job application platform using React.js and Node.js, enabling users to search for jobs, submit applications, and track progress.

Key Features: User authentication, job search functionality, application tracking.

Link: <https://react-jobs-fkmm.vercel.app/>

Task Management CLI Tool:

Developed a command-line interface (CLI) tool in Python for efficient task management.

Functionality: Create, update, and delete tasks with a user-friendly interface.

Link: <https://task-management-swart-ten.vercel.app/>

Rent Management System:

Designed and developed a full-stack web application for managing rental properties using React.js, Node.js, and Flask.

Features: Property listing, tenant management, rent payment
